*** Kalispel Tribe, Agencies Sign \$39.5 Million Agreement For Pend Oreille River Habitat Protection**

The Kalispel Tribe of Indians has signed a 10-year, \$39.5 million agreement with federal agencies that focuses on actions to address impacts of Albeni Falls Dam on fish and wildlife in the area of Lake Pend Oreille and the tribe's reservation along the Pend Oreille River about 55 miles north of Spokane.

The agreement recognizes the tribe's resource management expertise and its interest in operations at Albeni Falls Dam and includes specific provisions for the tribe to participate in decisions that affect fish, wildlife and water quality.

"The Kalispel Tribe is excited to see this agreement come to fruition as a result of nearly two decades of positive working relationships and on-the-ground successes. We believe this is just the beginning of a strong partnership with the federal agencies and we are hopeful for the future of our important and treasured resources," said Kalispel Tribal Chairman Glen Nenema.

The agreement makes available approximately \$39.5 million over 10 years, including \$2.5 million for land acquisitions for wildlife habitat.

The tribe has identified habitat projects to benefit Endangered Species Act listed bull trout as well as west slope cutthroat trout and mountain whitefish.

In addition, the new agreement provides for the tribe, Army Corps of Engineers and Bonneville Power Administration to work together on improving water management actions in late summer and early fall to improve downstream water temperature for bull trout and other aquatic species.

"This agreement shows our collective resolve to work together to protect the fish and wildlife resources at Albeni Falls Dam," said Dave Ponganis, regional director of programs for the Corps' Northwest Division office.

The agreement is similar to the 10-year Columbia Basin Fish Accords signed in May 2008 by the Corps, BPA, Reclamation, the Confederated Tribes and Bands of the Yakama Nation, the Confederated Tribes of the Umatilla Indian Reservation, the Confederated Tribes of the Warm Spring Reservation and the Columbia River Inter-Tribal Fish Commission.

Separate agreements were signed with the Confederated Tribes of the Colville Indian Reservation, the states of Idaho and Montana and the Shoshone-Bannock Tribe.

The state of Washington signed an agreement with the federal agencies in 2009 for work in the Columbia River estuary.

The accords include a slate of actions in habitat, hatchery and research, monitoring and evaluation that will improve the prospects for recovery of listed salmon, bull trout and steelhead. They are the result of a multi-year collaboration among states and tribes and the federal agencies involved in Columbia River Basin fish protection.

"BPA is pleased to add the Kalispel Tribe to the growing list of tribes and states that are working together as partners to provide on-the-ground benefits for fish and wildlife," said Lorri Bodi, vice president for BPA Environment, Fish and Wildlife. "Today there is widespread agreement that this comprehensive approach is the best plan for fish."

The Kalispel Indian Reservation is located approximately 55 miles north of Spokane in Pend Oreille County. Portions of the Pend Oreille River and its tributaries lie within the boundaries of the reservation as established by an executive order in 1914. The development of the federal dams on the Columbia River has had significant, long-term adverse effects of the culture, natural resources and economy of the Kalispel Tribe.

The FCRPS includes dams owned and operated by the Corps and Reclamation. BPA markets and distributes the electricity produced at these dams throughout the Northwest.

Helen,

Love the edits from Ben and I notice a few new ones of your own. I have none add, my only comment is that, I think we are getting this 'boiled down (like we are making a special roux). There are multiple issues involved and I think they are now well defined for the folks at HQ. They should have the necessary elements from which to have a substantive conversation w/ us and get to a decision.

Hope I'm not dreaming or maybe its the color of my reading glasses!

Take care,
Don

Subject: Next reviewer

Here is the briefing paper with Ben's edits. I have reviewed it and made a few editorial changes. I am sending it out as a clean document because it is easier to read and edit this way. Don will be sending in comments next. Can Dave and Kelly let me know if they will be able to review it in the next couple days?

Helen, Kim and Dave,

Attached are several documents that have information about our need to consult w/ FWS and NOAA-Fisheries on TMDLs from our efforts on the Snake River-Hells Canyon TMDL. I did have informal consultation discussions w/ Rich Torquemada, FWS-Spokane office and he agreed w/ the approach and findings of our efforts on the Snake River, so I did not pursue it any further.

Take a look and let's chat,
Don

Subject: Pend Oreille TMDL - HQ Presentation

Greetings all. I've exchanged voicemails with Jim Curtin, who is on vacation. He thinks that an R10 presentation addressing the issues the Tribe raised is an "excellent idea." He's back on August 28th and recommended that R10 folks float the idea with Sarah and work with her to set up a time.

We currently have a tentative hold for one hour on August 28th. I'd rather we take two hours in one chunk and not split it up. August 28th may also be too soon to pull a presentation together. So I'd recommend we postpone the 28th meeting until a date when we can get a block of two hours and have more time to prepare. Meanwhile, I will send comments on the Tribe's power point in the coming days.

Enjoy your summer weekend! - Kim

Sarah,

Thanks for all you did in making arrangements for yesterday's meeting. I thought it went quite well and we look forward to EPA HQ providing leadership to Region 10 on the Pend Oreille Temp TMDL situation.

Please Pass on my compliments to the others who attended.

Thanks again.

Deane

Subject: Re: Mid to late Sept. R10-HQ call-- how about Oct. 16?

Hi Sarah- Thanks for the cat-herding work. After checking schedules here, us Region 10 cats are wanting to push-out our meeting with HQ until the week of October 15 (or later if that week does not work). Folks here have some pressing deadline projects that prevent working on the Pend Oreille and then both Ben and Kim are on vacation for a week-plus in the intervening time. We want our meeting with you all to be efficient and our presentation to be well-organized. The extra week or two will allow everyone on the team to have input on the presentation. Can you check about establishing a 2-hour meeting for all of us in that timeframe?

Dave

Sarah Furtak

Hi Dave, Helen, and others, Welcome back, Dav...

Subject: Mid to late Sept. R10-HQ call

Hi Dave, Helen, and others,

Welcome back, Dave, when you read this!

Scoping out a mid-to-late Sept. window on folks' calendars is challenging.

These times may work on this end for a R10 presentation/discussion. Perhaps we could do it via webinar or videoconference. Please let me know if one of these times work for Region 10 and how much time you need.

All times Eastern

Thurs., Sept. 13 -- 3:00-5:00 pm

Mon., Sept. 17 -- 12:30-2:00 pm

Mon., Sept. 24 -- 12:30-2:00 pm

Wed., Sept. 26 -- 3:00-4:00 pm

Tues., Oct. 2 -- 1:00-4:00 pm

I'll plan to touch base with you again next week.

To: Don Martin/R10/USEPA/US@EPA
Date: 11/06/2012 11:36 AM
Subject: FW: Proposed agenda for Ecology - Kalispel Ponderay Newsprint NPDES permit review meeting

Don: FYI heads up that we are meeting today with Kalispell Tribe re: Ponderay Newsprint NPDES draft permit. Any speculation/news on when the TMDL might get approved/disapproved? Mike Lidgard sent us a letter suggesting that permit issuance be delayed until the TMDL is approved, so it would be helpful to know the approximate timeframe. The public comment period has been extended until the end of November (at the Tribe's request), but our goal is to finalize by the end of the calendar year. Any update/info appreciated. Thanks!

Subject: Proposed agenda for Ecology - Kalispel Ponderay Newsprint NPDES permit review meeting

Hello All,

Below is a proposed agenda for tomorrow's 2:00 PM meeting at the Kalispel Wellness Center. We will have a computer and display for any PowerPoint presentations. Please let me know if there is anything else you may need.

Proposed Agenda

Kalispel Welcome and Introductions:	20 minutes
Ecology's Presentation on Basis of Permit:	50 minutes
Questions and Discussion:	40 minutes
Follow-up Steps:	10 minutes

Regards –Ken
